12. Prepared By: Print Name: <b>Steve Smith - SITL</b>  Date/Time Prepared: <b>08/31/2017 1800 CDT</b>		13. Approved By: Print Name: <b>Danny Bryant -ICT2</b>  Signature: _____									
14. Date/Time Submitted: <b>08/31/2017 1832 CDT</b>		15. Primary Location, Organization, or Agency Sent To: <b>TX-TIC</b>									
16. State: <b>TX</b>	17. County / Parish / Borough: <b>Brazos</b>		18. City: <b>Bryan</b>								
19. Unit or Other:	20. Incident Jurisdiction: <b>Multiple</b>	21. Incident Location Ownership (if different than jurisdiction): <b>TX-TXS</b>									
22. Latitude/Longitude: Latitude: <b>30° 37' 54"</b> Longitude: <b>96° 28' 46"</b>	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:		24. Legal Description: Principal Meridian: Township:      Range:      Section: 1/4 Sec: of 1/4 Sec:								
25. Short Location or Area Description (list all affected areas or a reference point): <b>Areas along the Texas Gulf Coast and inland in the Houston and Beaumont vicinity</b>			26. UTM Coordinates: Zone: Easting: Northing:								
27. Note any geospatial data available (indicate data format, content, and collection time information and labels): <b><a href="https://harveytx.maps.arcgis.com/apps/PublicInformation/index.html?appid=f6e11b1dcd304399bf6bba1c4e137961">https://harveytx.maps.arcgis.com/apps/PublicInformation/index.html?appid=f6e11b1dcd304399bf6bba1c4e137961</a></b>											
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):											

## Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

Narrative: <b>RSA receiving mass quantities of consumable commodities to support PODS.</b>				
29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):  Narrative: <b>Hazardous waste, contaminated flood waters, storm debris</b>				
30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc): <b>Information not readily available due to ongoing assessments and coordination of support efforts underway.</b>	A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
	E. Single Residences	0	0	0
	F. Multiple Residences	0	0	0
	G. Mixed Commercial / Residential	0	0	0
	H. Nonresidential Commercial Property	0	0	0
	I. Other Minor Structures	0	0	0

<p>36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:</p>	
12 hours:	<b>Continuation of receiving and inventory of commodities at the RELLIS RSA and making preparations for redeployment to Beaumont to establish new RSA.</b>
24 hours:	
48 hours:	
72 hours:	
Anticipated after 72 hours:	
<p>37. Strategic Objectives (define planned end-state for incident):  <b>Provide for the continued safety and support of individuals in the devastated areas across SE Texas.          Assist the Texas Forest Service with establishment and oversight of the "RELLIS" RSA.</b></p>	
<p>38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:</p>	
12 hours:	<b>Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas.</b>
24 hours:	<b>Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas.</b>
48 hours:	<b>Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas. Potential for additional rainfall may prolong flooding conditions and hamper rescue, recovery and restoration missions.</b>

## Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

72 hours:	Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas. Potential for additional rainfall may prolong flooding conditions and hamper rescue, recovery and restoration missions.				
Anticipated after 72 hours:					
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:					
12 hours:					
24 hours:					
48 hours:					
72 hours:					
Anticipated after 72 hours:					
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to: <ol style="list-style-type: none"> <li>1) critical resource needs identified above,</li> <li>2) the Incident Action Plan and management objectives and targets,</li> <li>3) anticipated results.</li> </ol> <p>Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.</p> <p><b>Preparations to standup a RSA in the Beaumont area is a priority however, continued extensive flooding affecting the vicinity and preventing access to is hampering progress. Extensive planning and preparations are being coordinated between Texas Forest Service, FEMA and the Southern Area IMT to support the establishment of the Beaumont RSA but significant constraints and safety concerns exist with the lack of infrastructure and available provisions.</b></p>					
41. Planned Actions for Next Operational Period: <b>Begin transition of the management of the RELLIS RSA from the Southern Area IMT to the Texas Forest Service Lone Star IMT. Continued efforts to redeploy the Southern Area IMT to Beaumont to standup new RSA.</b>					
42. Projected Final Incident Size/Area (use unit label – e.g., “Acres”, “Square Miles”):					
43. Anticipated Incident Containment or Completion Date:					
44. Projected Significant Resource Demobilization Start Date:					
45. Estimated Incident Costs to Date: <b>\$171,000.00</b>					
46. Projected Final Incident Cost Estimate:					
47. Remarks (or continuation of any blocks above – list block number in notation): <b>The RELLIS RSA has received more than 80 truckloads of various commodities at time of report.</b>					
49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
